Color Keyed Indexing™

adding organization to the system

The key to efficient filing is effective indexing. Specially designed for the Oblique hanging filing system, Color-Keyed Indexing can adapt to suit any existing coding situation - alphabetic, numeric, or alphanumeric - instantly. Using twelve colors, the indexing system lets you easily see visual indexing categories in your series or collection, speeding access and retrieval. Refiling materials is as easy as 1-2-3. With Oblique's full line of specialty Guides (Out, Current, Reorder, etc.) you take full control of your materials. From files to library materials to information collections, Color-Keyed Indexing points the way!

Primary Guide

In top position to indicate major indexing breaks.

Guide Snapper

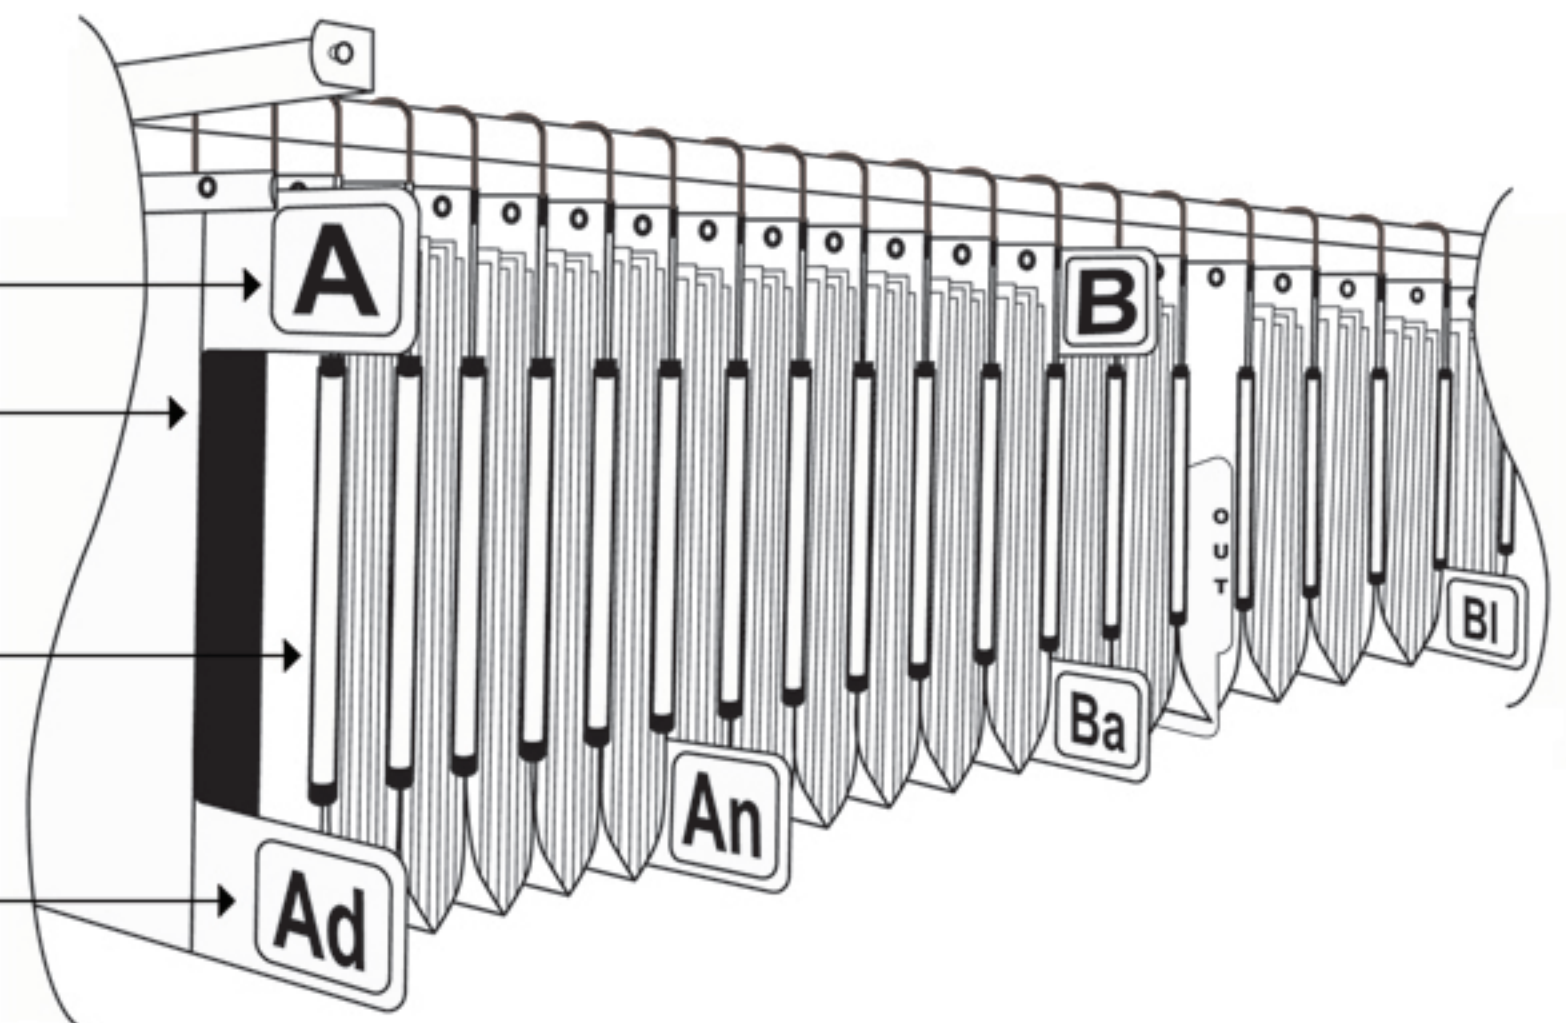

Allows guides to be snapped to first compartment in a row

6" Magnified Labels

Indicate compartment contents.

Secondary Guide

In lower position to indicate minor indexing breaks.

AZ Print 2.0 software allows you to print all Oblique label types
