## CKI Shelf Guides...

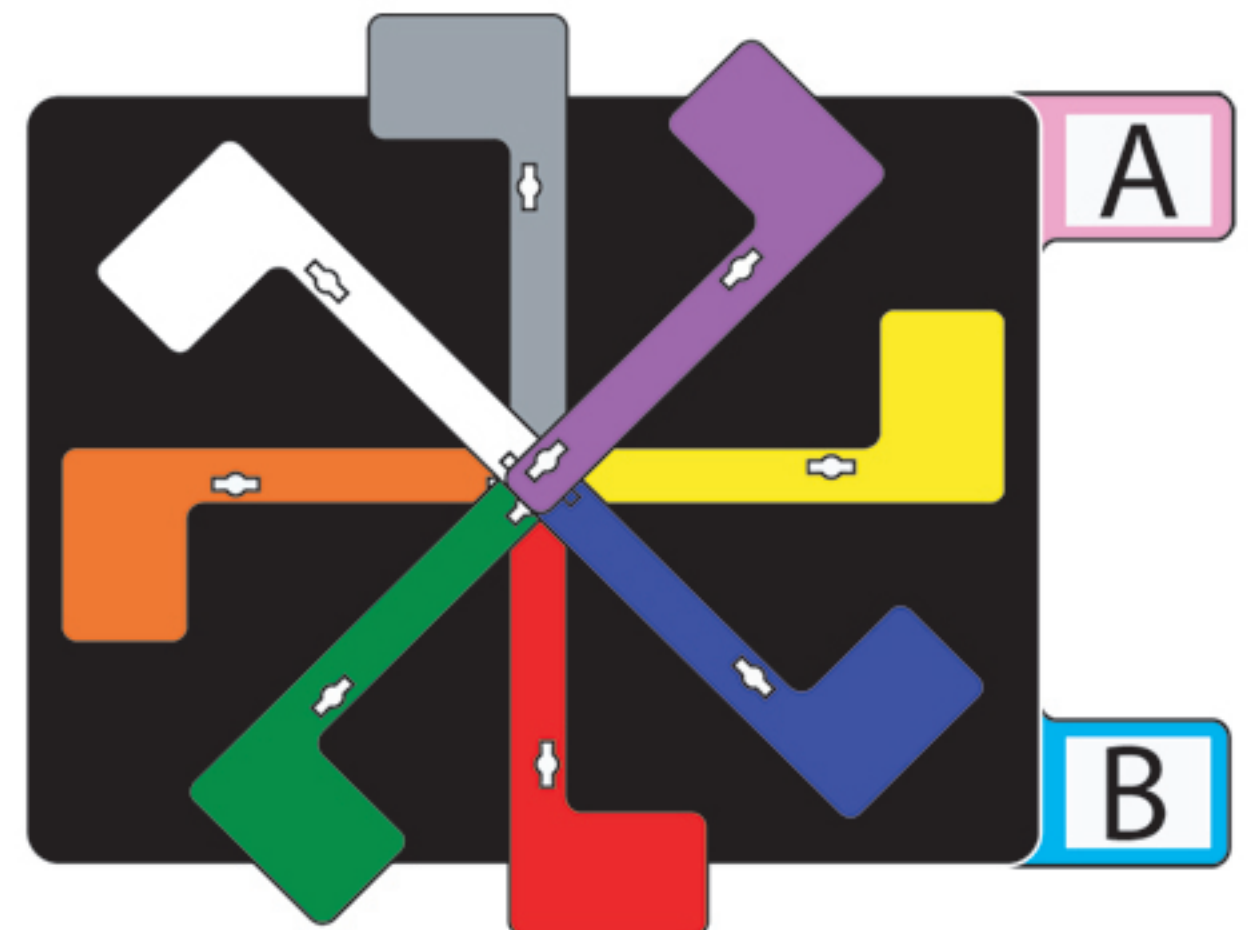

## bringing indexing to traditional shelf filing

CKI Shelf Guides are a new concept in shelf filing. When you're looking for a temporary solution until a file conversion can be completed, Shelf Guides show the way. You may even include Shelf Guides as a part of a normal end-tab file conversion to make finding and refiling materials faster. Why? Because Color-Keyed Indexing can be seen from across a room, helping customers locate information faster than using end tabs alone! One way or another, with CKI Shelf Guides the indexing flexibility and customization possibilities are endless. You find what you need, when you need it!

The key to CKI Shelf Guides is the combination of our Color-Keyed Indexing with AZ Print software. Using our label printing program, you can create a unique indexing scheme with as much (or as little) information as needed on either EZ-View six inch labels or Oblique Primary/Secondary Guide labels. Choose among five vertical positions to create even more indexing flexibility.

- ✓ Twelve standard colors for both Guides and labels;
- ✓ No packaging or quantity limitations. Order exactly what you need;
- ✓ Mix and match colors for your EZ-View Labels
- ✓ Primary/Secondary Guides;
- ✓ Heavy duty press board construction ensures durability;
- ✓ Flexible vinyl guides which won't break, split, or crack;
- ✓ Replaceable labels, making the Shelf Guides reusable as business needs change.
- ✓ Available in standard letter (9¼" x 11½") or legal (9¼" x 14½") sizes
- ✓ Custom sizes are also available at no extra charge unless the dimensions are larger than those shown above.

*oblique filing systems*

Primary and secondary guides are used in different ways. Organization is the key to any filing system. Oblique's shelf guides help you ensure that you find what you are looking for. Shelf guides can be used with letter and legal size documents. The Shelf Guides are made of heavy duty pressboard, and the flags are made of flexible vinyl which won't break, split or crack. The flags can be ordered in 5 different positions from top to bottom on the Shelf guide. CKI Shelf Guides can also be ordered with Oblique's 6" label holder. There is an easy way to bring order to your files!
