GOLFbagSTOR

Across the United States, golf clubs are asking the same question:

How do I increase revenues while maintaining value for their customers?

One of the best ways to accomplish this is to increase the club's capacity for bag storage, which allows more bags to be stored in the same floor space. Oblique's GolfBagStor makes this possible. Oblique GolfBagStor provides a quick and easy, yet superior alternative to custom made wood based systems.

A Simple System for the Storage of Golf Bags

Oblique's GolfBagStor™ provides an easy to specify, easy to install system of standard Oblique rails which will provide maintenance-free storage for many years. By using Oblique rail assemblies, the system provides the following benefits:

- Application for four post or mobile shelving
- Easy installation lowers costs Zinc-coated rails are rust-resistant
- Sidelstops can be moved to provide flexible spacing and maximize capacity.
- Can be specified in single or double face shelving, one or two tiers.
- All items are standard products and can be shipped in 5 working days.
- Open rail design allows for easy cleaning and maintenance.
